

FUNDAMENTALS OF CLINICAL RESEARCH: GCP & BIOETHICS

SHODH CLINICALS
Deep Dive to Deliver Quality

Saturday, 13th Jun 2026

Shodh Clinicals: Where Learning Meets Excellence!

This virtual program is a comprehensive and practical introduction to ICH GCP E6 (R3) Guideline, the ethical and regulatory standards such as ICMR Guidelines, & NDCT rules 2019 guidelines for conducting clinical trials. These are widely accepted by regulatory authorities around the world. This program is suitable for both beginners and experienced clinical research professionals who want to refresh their GCP knowledge. It covers all the domains, levels and roles involved in clinical research and clinical trials. The program is delivered online through a virtual platform, where you will learn from domain experts and trainers from industry and academia.

Why GCP Matters:

For Researchers: Encourages innovative designs and streamlined operations.

For IRB/IEC Members: Ensures ethical oversight & participant safety in clinical trial.

For Participants: Ensures safety, dignity, and transparency.

For the Industry: Promotes efficient, high-quality, and globally compliant trials.

PROGRAM HIGHLIGHTS

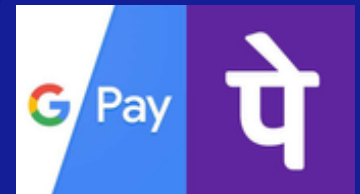

- Transition from ICH GCP E6(R2) to E6(R3)
- Ethical Principles & Challenges
- Sessions with Academia and Industry Experts
- Pre-Training and Post- Training Evaluation
- Access to reference Material
- Certificate of Completion

Registrations Open!
Limited Seats
Fees- INR 2000/-
